Amaro da Salotto Interval. Our insatiable desire to explore new lands takes us to new worlds, new cultures, new plants that we try with great simplicity to recreate in a jar. "Maybe we had, but we didn't know," said Giocondo. Interval combines gentian, galangal, absinthe, bay leaf, marjoram expertly processed in single and single infusions, mint and sage processed in steam distillation. We forgot, there are no citrus fruits. To close a bottle, you have to know how to patiently wait for the natural cycle of the plants. Interval is magic. It is a refined break, your palate will be enveloped by a velvety taste. "Please sit down and drink it right in the living room. ""
