Alcohol content	20 %
Article no	78101717

Comments

Nature dictates whether a Vintage Port can be pressed. It's a highlight for every winemaker when the time comes again, especially when it's a vintage of this quality that is predicted to be among the best vintages of the last hundred years.

Pairing

Perfect to drink alone or with blue or other strong and mature cheeses.

Tasting notes

Opaque in the glass. Excellent concentration and aromatic depth where notes of ripe wild fruit and soft spices stand out. Harmonious start, progressively evolving into a wine of great volume and concentration, composed of fresh tannins of firm texture and compactness. It finishes fresh, long and elegant, with a remarkable aromatic explosion of very ripe wild fruits in perfect harmony. Everything is incredibly well balanced, which predicts a high potential for aging in the bottle.
